

Enjoy the outdoors..

Complete peace of mind, go out knowing you can stay warm and dry.

ScooterPac is impervious to the elements, with no danger of rust!

Simple

A few simple steps to open & close the canopy

Fitting is simple too! Simply slide the bracket into the accessory bar on the bottom of the scooter seat, and attach the adjustable arms to the scooter armrests.

Designed to perform

The ScooterPac canopy is unique, comprising a light yet strong and long-lasting aluminium frame, hardwearing waterproof canvas roof, clear polypropylene side windows and a hard, clear Perspex front window.

Opening up new horizons in mobility

The world's first fold-away mobility scooter canopy

***Folds out in seconds
for protection from
any weather conditions***

Enjoy independence with this easy-to-use canopy and go out on a whim, without any help.

Looks like rain?

Fold it out from behind the seat to form a top and side canopy.

Turned out sunny?

Fold the canopy back in seconds for a breezy ride.

Some of ScooterPac's unique feature

Speedy

No long waits for a canopy to be made, and with the added benefit of it fitting virtually every scooter - instantly!

Versatile

From the largest 9mph scooters right through to the smallest car-transportable, the ScooterPac's clever design means one size fits all!

Innovative

The ground breaking patent-pending technology provides protection from the rain and lets you soak up the sun (when it's out!)

Robust

Aluminium construction for long term durability and no chance of rust! And-state-of-the-art cover material too!
